Power Steering Technology -

"Is EPS steering you in the wrong direction?"

This seminar will cover some of the electric power steering systems found today, including the components and operation, diagnostics and servicing these electric power steering systems. Even though electric power steering technology is expanding into more vehicles, let us not forget that many vehicles on the road still have hydraulic power steering.

Food provided at 5:30 P.M. Meeting starting at 6:00 P.M.

Location: 1939-A East Florida, Springfield MO 65803

Fax Your Reservations to 417-851-4966
