You are on the following topic: Catalogs > ACDelco Connect > Configuring ACDelco Connect

Configuring ACDelco Connect

To configure ACDelco Connect, you need to do the following:

- 1. Put the **ACDelco** button in the Quick Launch.
 - Open **Configuration > File menu > General Options**. In the **Catalogs section**, select **ACDelco Connect** and click **OK**.
- 2. Configure an ACDelco supplier with a supplier interface; see [Setting up an ACDelco Supplier](#).
- 3. Configure pricing for posted parts.

Configuring the Posted Part Price

You need to configure how R.O. Writer determines the part price when posting parts from ACDelco Connect. Complete these steps:

- 1. In the main module, open any ticket.
- 2. Click the **ACDelco** button in the Quick Launch. The integration window opens.
- 3. Click the **Options** button in the top, right-hand corner. The Parts Posing Options window opens. These options determine the price posted to the ticket.

ACDelco Connect Parts Posting Options

Pricing Option

List Price

If RO Writer is currently using Wise Catalog connection, we need to change the Catalog associated with our Supplier in RO Writer to

“ACDelco Connect”

Configuring the ACDelco Interface

After you receive the interface information from your ACDelco Connect supplier, enter them on this window.

R.O. Writer cannot provide you with your account information; you must obtain your account information directly from the supplier.

Connection Information

User Name: ☐ Primary Shipping Type:

Password: ☐ Post Orders to Accounts Payable (Leave blank unless instructed by supplier.)

Web URL: << Set to default URL

Cancel Save

Enter the interface information you obtained from your supplier in the bottom half of the window.

- Enter the
 - Username and Password for your account.
 - Shipping Type if the supplier instructed you to do so.
 - Click the Set to Default URL button to enter the [default URL](#) to access the catalog.
- Check [Primary](#) and/or [Post to Accounts Payable](#) if applicable.

After the interface is configured, you must also configure how the [price of posted parts](#) is determined.

RO Writer – How to Update Vendor Catalogs

R.O. Writer > Configuration > Configurations > Parts >
Suppliers > Button on lower right for updating catalog

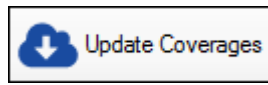

ROWRITER SMART ECAT – HOW TO UPDATE CATALOG/COVERAGES
